# African Dads and Kids Camp

African fathers are invited to bring along one of their children (a son or daughter) between the ages of 7-16 for a free fantastic camp experience. The focus of the adventure is to explore the differences and similarities between being a parent in Australia and a parent in Africa. CatholicCare, with the support of Victoria Police, help create fun bonding experiences between father and child with opportunities for discussions in the following areas:

- Respecting traditional culture and a new way of life
- Developing personal relationships with children
- Understanding each other's strengths and weaknesses
- Building on strengths through communication
- Child discipline and Australian law

Most importantly, this will be a memorable and enjoyable camp with activities that may include some or all of the following: beach visits, campfires, bush walks and canoeing, fun challenges and experiential learning. It is about creating a positive experience between father and child with a focus on enjoyment, awareness of family issues and family laws.
